Week Ending 1.5.20

Mrs Coombs having fun at the Hub

LIFE IN LOCKDOWN

Here we are at the end of another week in Lockdown. Last week when I was working, I was enjoying the sunshine and sometimes taking my computer outside and working in my garden.

It has been a bit different this week because, although we cannot complain about the weather, we have for the first time in a long time seen some rain. I am sure the gardeners amongst us (and the plants) will not be complaining about that. Mrs Sharp was in our Eco Garden on Monday and noticed the apple tree was beginning to blossom and the potatoes beginning to grow.

Last weekend as I enjoyed a walk along the River Forth, I realised how lucky we were to live in this part of the country with green spaces, a river nearby and lots of trees, wildlife and views of the mountains.

I also saw these little guys at the side of the Allan Water in Bridge of Allan

I hope you too are enjoying your daily walks and looking out for different birds and flowers etc. I have been delighted to see some lovely photographs and read many of your comments on Google Classroom of

WEEK ENDING 1.5.20

the many different things that you have been doing whilst being with your families. Lots of creativity and learning in different ways and it is amazing what you can do.

Your teachers are working really hard to ensure you have lots of exciting learning opportunities through your fortnightly learning grids so don't forget to try to do as much of them as you can whilst enjoying other activities both online, around the house and outside. It has been lovely to be able to see some of you in the Dunblane Hub and hear what you have been doing too.

Remember to go on to Google Classroom, update your teacher on what you've been learning or even just say hello.

Keep Well everyone. We are all missing you.

Mrs Kane
