

## Differences between Old and New

I was never at the 'old' Strathyre School. I just joined everyone when they were at McLaren High. McLaren High was good but our new school is better. At McLaren it was very noisy as it was open plan, Class 2 were upstairs and Class 1 were downstairs. We could always hear what each class was doing. In our new school we have three big classrooms. At McLaren if it was a wet playtime we had to stay in class 1 room but now we can go to the new P.E hall and Mrs Keenan organises different games every time for us to play. The playground at McLaren was good but sometimes we had to share it with the high school children but now at Strathyre we have the playground to ourselves and it is great. We have a mixture of trees, hill and a flat area. It's great for playing tig and hiding. I prefer being at Strathyre
