

## What I Like

I like that's it's a calmer school, it is quieter than being a McLaren. The wee class could hear us and we could hear them, now we can't hear anything. There are corridors and doors in between the classroom in Strathyre but at McLaren the big class was above the wee class and there were no doors. Our new school is bigger, its eco-friendly. It is amazing, fun, happy, friendly and there are more rooms. There is also a lift and an amazing P.E hall. In the spare classroom which is known as the MIC hub we have a robotic station which I enjoy doing. Our new school is great.
