

Wednesday 20th January 2021

Today's Meetings		
9:30am	11:15 am - coaching conversation	2:30pm

Big Task:

Come up with an idea for a joint project between Blackburn and St Thomas' Primary School.

Things to consider:

What do our schools have in common?

What do you want to learn/explore/investigate?

How will your project cover literacy and numeracy? What other subjects will it include?

How will you share your ideas?

Wee Tasks

Calculate the distance between St Thomas' and Blackburn Primary. If you travelled the same distance in the opposite direction where would you end up? Email your answer to Miss Anderson!

Complete the daily check in on TEAMS

20 – 30 mins reading

Optional Extras

20 mins on Sumdog WLC competition

Project- Snowflake science:

Research how snow is formed? What is special about the sides of a snowflake? What is the changing state of water to create a snowflake? Observe snow falling by using a dark coloured tray/bowl to collect and observe as they fall...what do you notice? Are snowflakes all the same?

Take notes from your observations.
