Task 1: Number Talks – SECOND Level - Day 3

Remember – Number Talks are all about how you solve a task, mentally.

For this activity, don't use anything to help you, just use your brain!

Once you have an answer, draw and/or write down the way you worked it out, take a picture and send it back so that we can see how you solved it.

Look at the addition sentences. What mental strategy did you use to work out the answer? Did you use the same strategy? Was it an efficient strategy?

$$16 + 8$$

$$89 + 45$$

$$146 + 197$$

Remember to share with someone at home. Did they work it out the same way or a different way? Which way was the most efficient?

Task 2: Daily Rigour Calendar Day 3 - Division

3

Calculate

$$10 - 8 \div 2$$

Mild: Watch the division video and complete the quiz
