

A1 PRESENT... THE SOLAR SYSTEM

WE STARTED BY LEARNING ABOUT THE SUN AND THE PLANETS

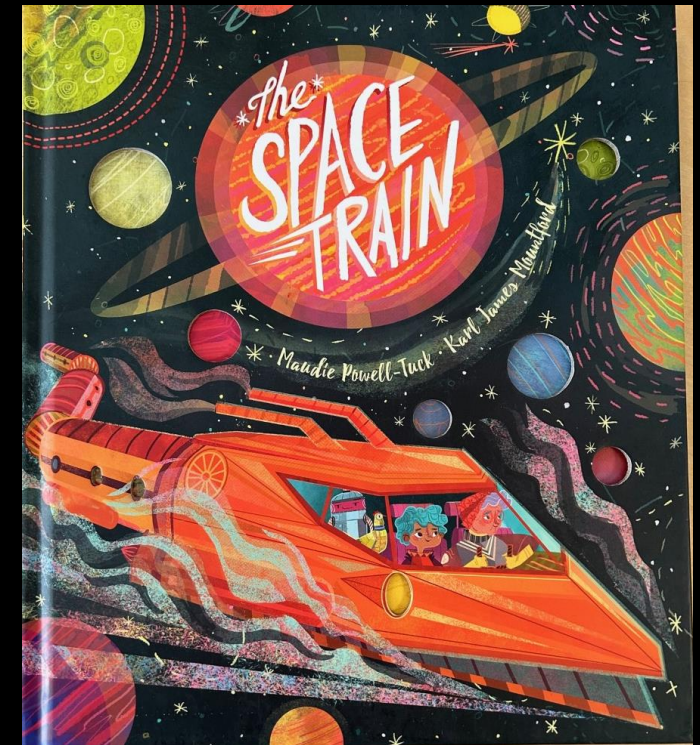

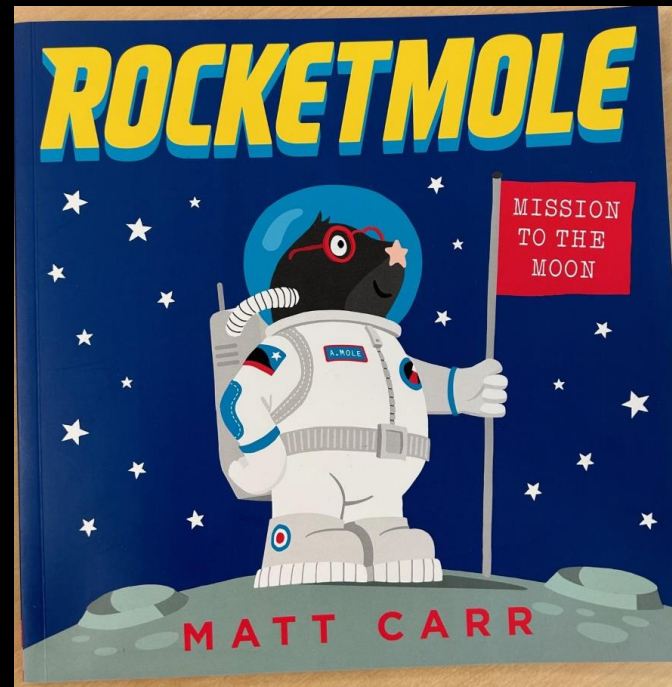

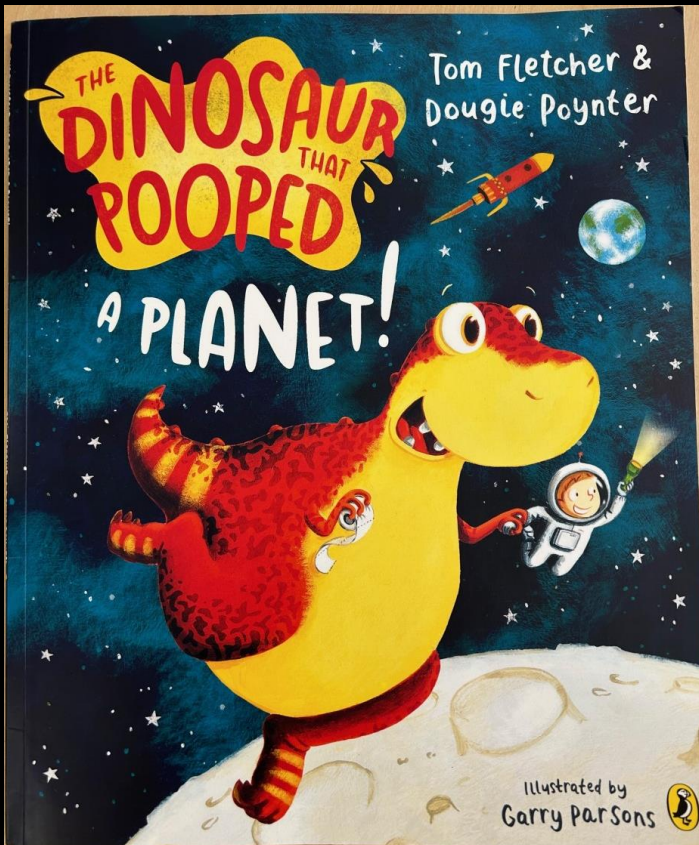

- We used our listening skills to learn facts about the sun and each planet.
- We made posters to share what we found out!
- We really liked this song about the Solar System...

OUR SCIENCE EXPERIMENT – MAKING A ROCKET LAUNCH

WE HAVE READ LOTS OF AWESOME STORIES ABOUT SPACE

THESE STORIES MADE US WANT TO BUILD OUR OWN ROCKET SHIPS!

DRAMA – WE TOOK A CLASS TRIP TO THE MOON

ZOOM, ZOOM, ZOOM,
WE'RE GOING TO THE MOON!

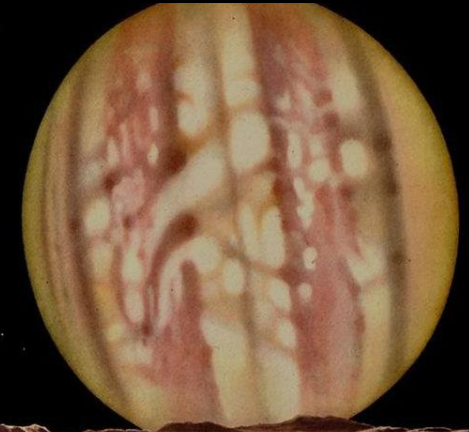

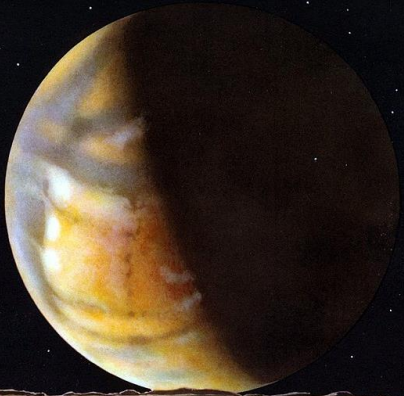

WE FOUND OUT SO MUCH WHEN WE WERE ON THE MOON!

- There are 200 moons in the Solar System - Nathan
- Neil Armstrong was the first person to land on the moon – Nathan
- It is grey – Gabi
- It takes 27 days to go around the Earth – Gabi
- It spins around the Earth - Dean
- The moon has 8 phases so looks different throughout the month – Dean
- The moon is fast! – Billy
- It is made of metal and rock – Jack
- It reflects the sun so it looks like it is shining – Jack

ARTISTS WHO LOVE THE MOON

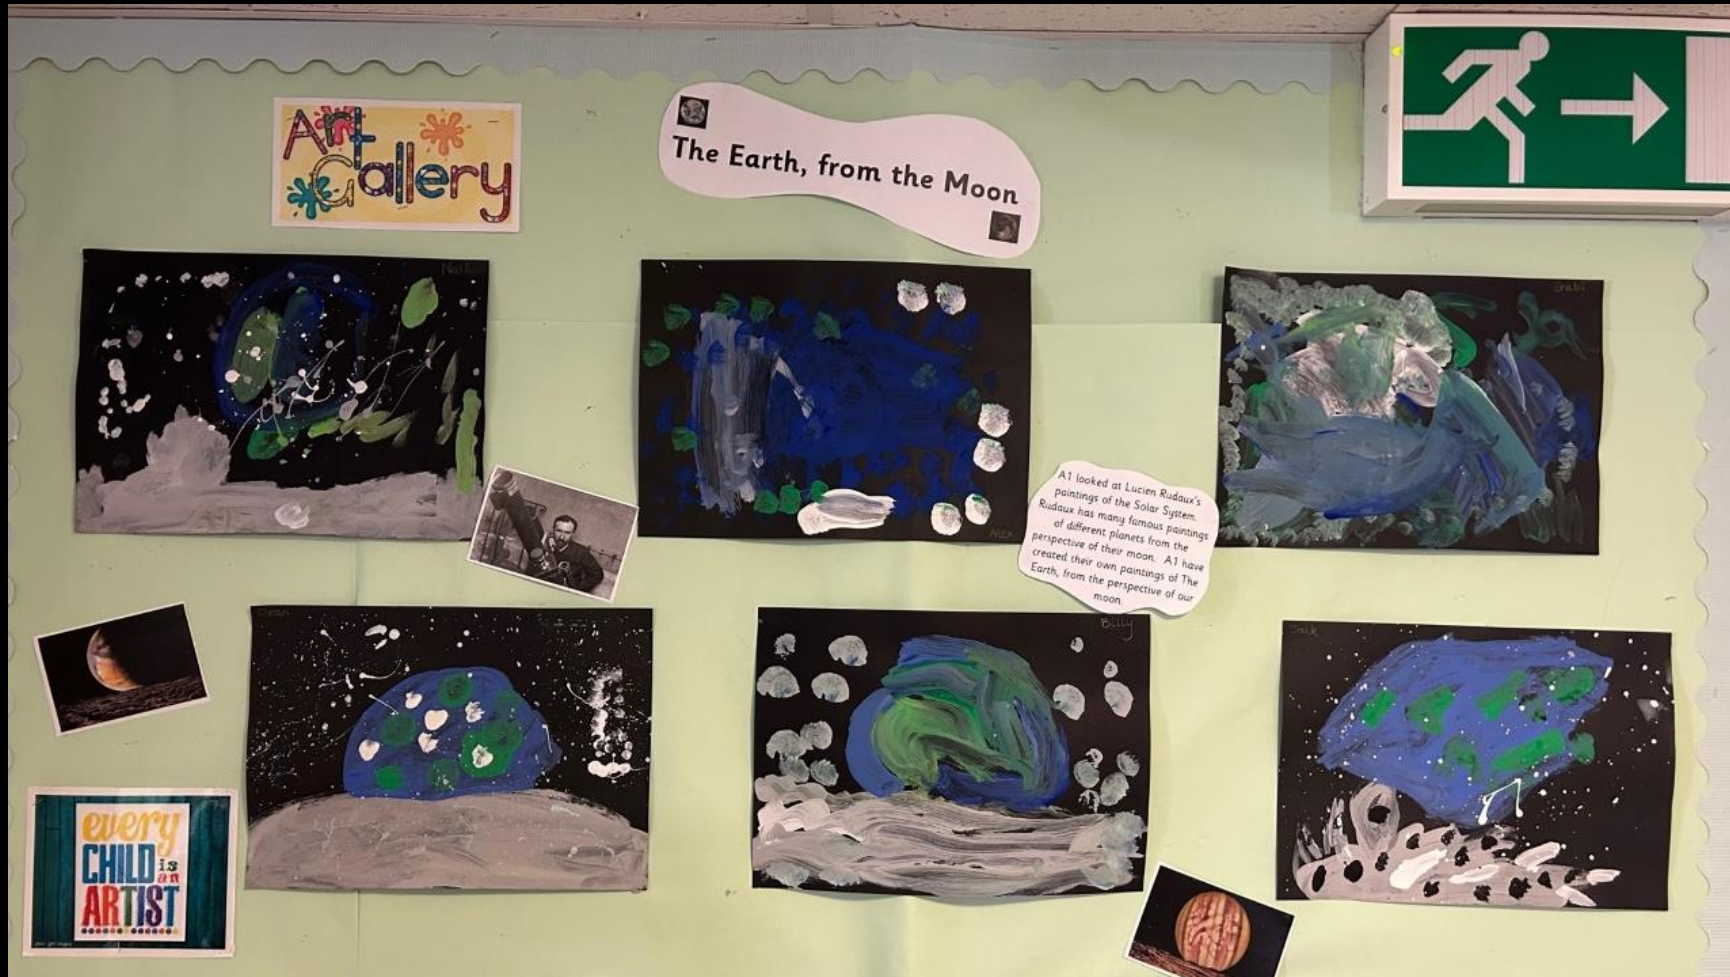

Julien Rudaux painted planets from the perspective of different moons.

OUR ART – EARTH FROM THE MOON'S PERSPECTIVE

NATHAN HAD AN IDEA... TO LOOK AT PAUL KLEE'S MOONRISE

Pupil voice:

- “It looks like Minecraft because it has blocks. It looks like a blocky world.”
- The painting is about the moon being helped to rise up.”
- “I think it looks like a spaceman helmet with a rainbow around it.”
- “The squares are connected together and the circle is the moon.”
- “He has used black paper because it is dark at night time.”

DYW – LEARNING ABOUT THE JOBS OF AN ASTRONAUT

Dean 4.3.2023

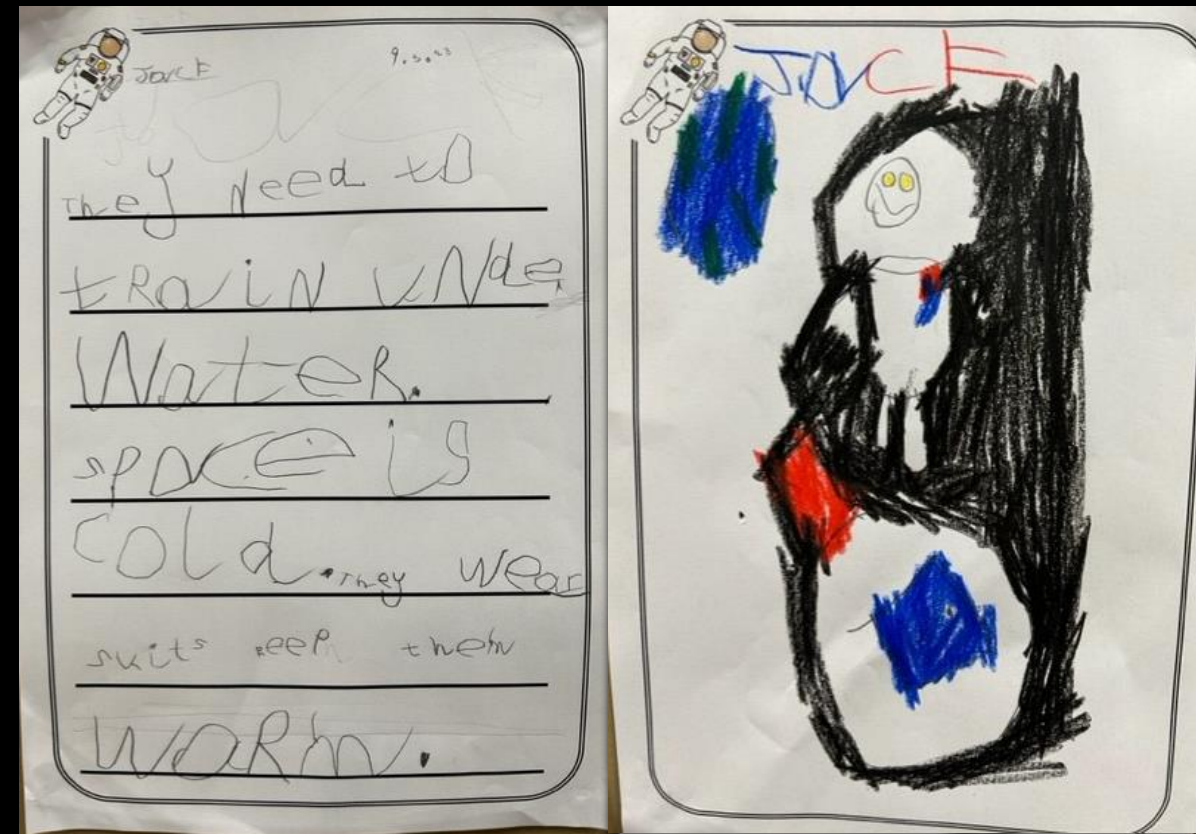

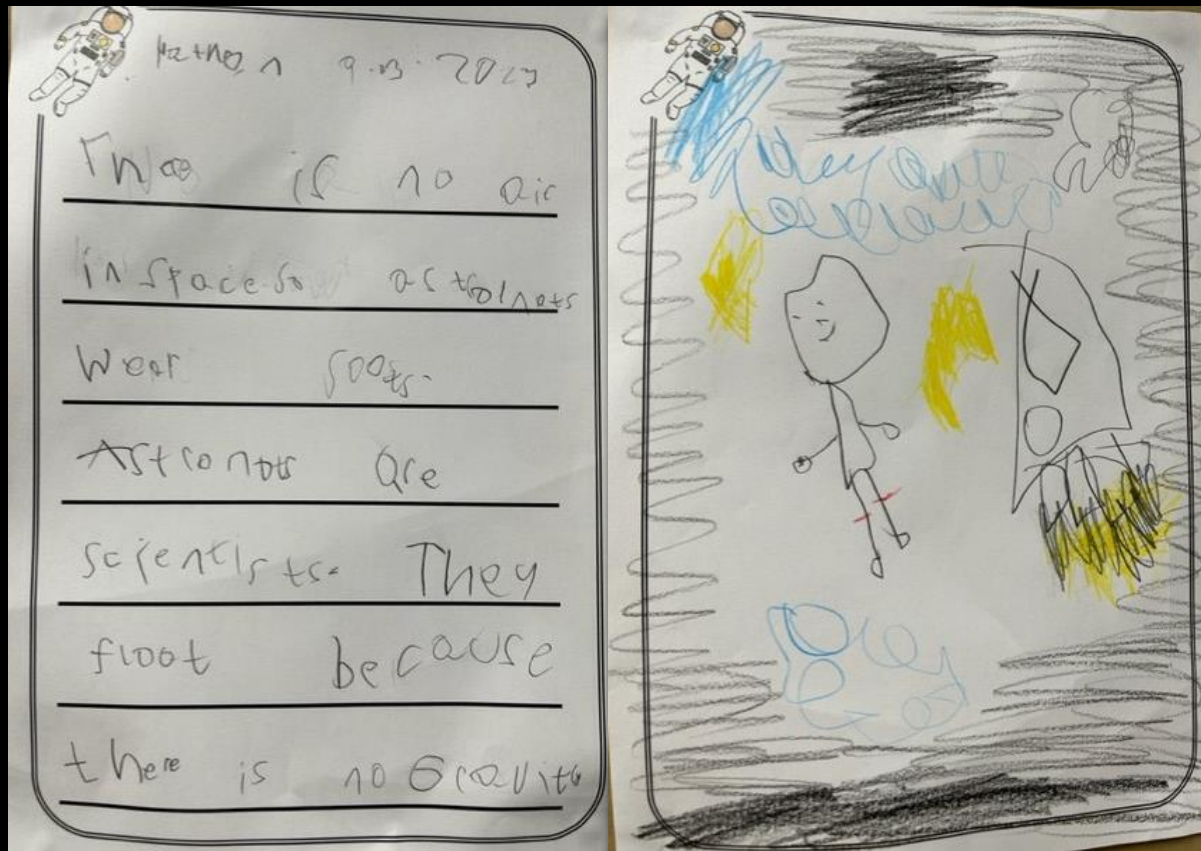

Astronaut means
star sailor. Astronauts
need a helmet and
bag to Breathe in
space. Astronauts need
to be healthy and smart. Their
suits make them warm.
