

Missing Number Addition

Answer these missing number sums by putting the first number in your head and counting on until you get to the answer.

E.g. for $5 + _ = 8$, put 5 in your head and count on using your fingers until you reach 8 "6,7,8". You counted 3 numbers so the missing number is 3.

$$1 + \square = 3 \quad 4 + \square = 9$$

$$4 + \square = 8 \quad 6 + \square = 10$$

$$3 + \square = 6 \quad 5 + \square = 5$$

$$2 + \square = 4 \quad 9 + \square = 10$$

$$2 + \square = 6 \quad 0 + \square = 6$$
