

## Spelling/Phonics

Words wc 9.11. 'ck' sound – **sack, back, neck, peck, pick, bucket, rocket**

Words wc 16.11 'ai' sound – **stair, chair, hair, rain, brain, train, stain**

Choose a way to practise your words each week. You could choose:

- Look, cover, write, check (covering up the word then trying to write it and checking it).
- Throwing a ball with someone and taking it turns to say each letter with every throw.
- Rainbow writing (using coloured pencils, writing the word in one colour and then going over it another 2 times in different colours).

## Reading

This week we are focusing on developing comprehension strategies when we are reading.

After reading your book at home, discuss:

How were the characters feeling in the book?

What happened at the beginning and end of the book?

What do you think is going to happen next?

## French

Here is a good song to help you practise your colours in French. It will also teach you some new words. How many can you remember?

## P2 Home Learning

Please complete the starred activities and then choose any more you wish to do.

# 123

## Science

In science we have been learning about what makes things **living or non-living**. Can you point out things which are living and non-living either in your house or outside? Remember living things will grow, eat and breathe.

We've also been learning about simple **food chains**. Can you explain to an adult what a food chain is?

## Numeracy addition game

In numeracy we are consolidating our understanding of addition strategies. We are using number lines to help us 'count on'. This means if we have 8+5, we don't need to count the 8 again, we just start at 8 and 'count on' 5.

This game will help you practise counting on. Start on the first number of the sum on the number line and count up the number you need to add to find the answer.
