

RESEARCH IT!

Choose an animal that you like and find out where it lives. You will need to research this online.

DRAW IT!

Now draw a line drawing of your animal in its natural habitat. We are going to use this drawing in our creature report tomorrow.

WATCH IT!

Use the webcam links to watch the animals at Edinburgh zoo.

SOLVE IT!

Look at the map and work out your route around the zoo.

You need to visit

Pandas, meerkats, rhinos, pygmy hippos, chimpanzees, Egyptian vultures, otters, zebras, penguins, sun bears and Sumatran tiger.

You must also find a good spot for lunch and morning snack.

Plan your route.

Numicons tell your grown up the order

Numbers and digits write down your route in your jotter using ordinal numbers – 1st, 2nd, 3rd etc.

Zoo trip

Thursday 18th June

Let's go to the zoo!

READ IT!

Look at the comprehension task and answer the questions

Limes – Adult read and child answers set one questions.

Apples – Read with adult support and answer the second set of questions.

Bananas – read independently and answer the third set of questions.

WATCH IT!

Watch the animal classification video that you think your chosen animal fits into. Is it a

mammal? bird? reptile?
fish? amphibian?
