Your Jedi Mission is to rescue your robot companions, R2D2 and C3PO. They have been kidnapped by an Evil Sith Lord! The location of the robots is unknown so you must travel to a nearby planet to find out from your VERY old friend...

YODA!

What ship will you use to fly there?

X - Wing - 10 jumping jacks

Mellenium Falcon - 10 Squats

As you're flying through the galaxy some alien bounty hunters find out your mission and begin to chase you. Go into hyper speed (run in place) for 1 minute!

You found Yoda! But he needs you to practice some deep breathing first! Stand Tall - Shoulders back - Take a deep breath in for 5 seconds and then breath out for 5 seconds. Do this 6 times!

Yoda tells you the location is on the strange Planet called Woodbury Commons - You get excited and feel like dancing. Which dance move will you do for 30 seconds?!

Nice Job You beat him! And look who's here to help in this mission. It's your furry friend CHEWY! You want to high five him but he's a little tall - do 15 high jumps!

Back to the ship and back to hyper speed! Let's go get your robot friends!

Chewy brought along your lightsaber collection pick your color by speed walking to an object in the house that has the same color you want then speed walk back.

Once you get off the ship there are Storm Troopers there to meet you! Use your Jedi Mind tricks by holding your hand out and saying “These are NOT the Jedi’s you are looking for” ...

Look at that! They believed you and are walking away. Okay now lunge OR side jump your way to the Sith Base

Looks like this is where C3PO and R2D2 are! But the door is shut! Use your Jedi strength to open it by performing one of these. **SAFETY: MAKE SURE THE CHAIR DOESN'T MOVE!**
