## Heinz have released a "570 piece" ketchup jigsaw that's completely red

Heinz have released their own entry into the world of puzzles, as you can now get your hands on an all red ketchup puzzle which they claim to be made up of 570 pieces.

All red this puzzle is made of pieces that look exactly the same as the next, bar the shape, and it's fair to say that it would take you a while to see it finished! Heinz claim the puzzle has 570 pieces in honour of the 57 varieties of Heinz that's labelled on every bottle.

The puzzle contains 22 rows with each row containing 26 pieces - count them if you don't believe us!

RETAIL

- Can you explain why this puzzle does not actually contain 570 pieces?
- How many pieces does the puzzle actually contain?  
**\*\*HINT\*\*** Don't count them!!!
- Can you suggest a more suitable number of rows and columns that would actually give 570 pieces and a rectangle of similar size?
