

## Rainbow Fingerprints

### Materials

- paper (blue paper makes it look like the sky),
- rainbow colour paints (red, orange, yellow, green, blue, purple),
- cotton balls

### Instructions:

OPTIONAL: before getting started you can use a pencil and a bowl or plate to trace an arc on the blue piece of paper as a guideline to start your rainbow.

Use your fingerprints to paint the stripes of the rainbow. Remember, from top to bottom the order is red, orange, yellow, green, blue, purple.

Glue some cotton balls onto both ends of the rainbow like clouds.
