How do we achieve what we want for our children? [#buildingbrightfutures](#)

At St Joseph's Nursery class, Health and Well-Being is at the heart of everything we do. It is a stimulating, fun and loving environment where children feel included, safe and supported to explore the world around them in a quality learning environment both indoors and outdoors. The nursery encourages social and emotional well-being and promotes healthy lifestyle choices.

Play opportunities and interactions with skilled staff provide rich learning experiences that meet the individual needs of the children.

The caring and nurturing staff work in partnership with parents and carers to support children in developing self-confidence, and skills for lifelong learning and celebrate success.
