

**'working on the circuit board in pairs'**

**'Being cooperative with my classmates'**

**'Working with my partner on the circuit boards'**

**'the experiments because they are fun and working with my friends'**

**What I enjoyed most about today was.....**

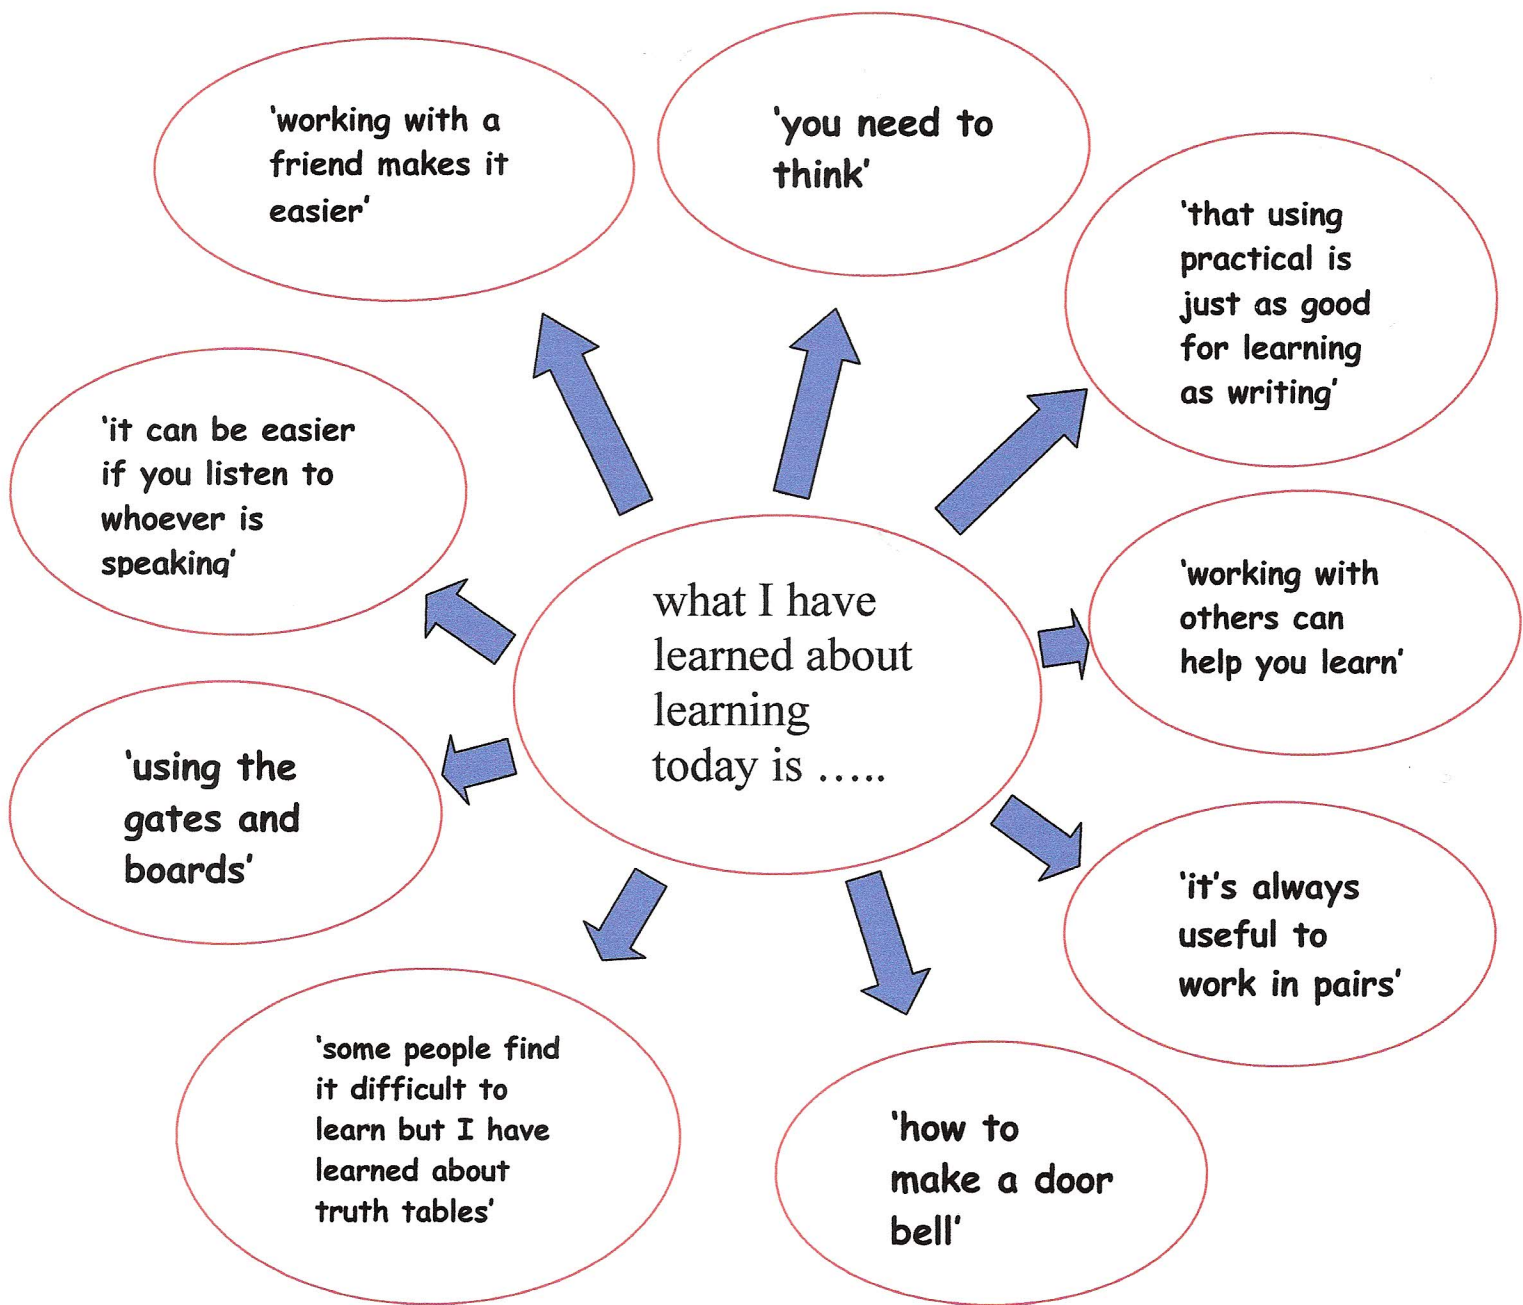

**'Working in pairs'**

**'learning how the circuit boards work'**

**'Learning about electricity'**

**'discussing problems with someone and helping them'**

**'working and talking'**

'I learn more and it's easier and more fun'

'it helps me understand'

'I can learn more with my friends' knowledge'

'it's easier to work with a partner and I have done better with a partner'

being able to discuss my work with a partner is good because.....

'we can tell each other our opinions'

'it's more enjoyable because you don't have to wait for the teacher to come if you are stuck'

'it helped me understand the question and I could consult my answer if I wasn't sure'

'It has really helped me by discussing and also helping others who need it'

'we understand each other and are very good together as a team on work'
