

"How do you feel about completing the questions on your own?" 10.1

I feel stressed, under pressure and panicked.

Annoyed

I feel like I know the answers but they turn out to be wrong

I feel nervous but not panicky because I get it wrong and I feel or look stupid.

I don't like to work on my own, as I don't ^{think} my answers are correct.

Panic - because I am scared because the answer is wrong.

lack of confidence

I feel unsure

fine for some ~~at~~
confident and usually
Sometimes uncertain and
can get very uneasy or
frustrated

A bit flustered
like being able to
check my answer
with someone.
Don't want to look
silly if it's wrong

~~confident~~ ^{when I know}
~~then~~ ^{and}
sometimes

confident when I know answer.
I panic when I'm not sure
or I haven't revised. When
I see some1 with a different
answer I become uncertain

Uncertain

Don't write it unless I'm sure
it's correct

I spend a lot waiting for the
teacher to get to me

- Ask the person beside
me ~~to~~ to make sure I
have the answer right,
but not always!
- I am confident in my
own abilities but like
the reassurance.
- I don't want to look
stupid.
- More of an un-conscious
thought process to ask
~~rather~~ rather than just
to write.

I prefer doing
the questions with
others as I feel
more confident
when ~~they~~ I
know we have
the same answer.
