## I can answer questions using the data of a block graph.

Favourite Pets In Our Class

| ${ }^{10}$ |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 9 |  |  |  |  |  |
| 8 |  |  |  |  |  |
| 7 |  |  |  |  |  |
| 6 |  |  |  |  |  |
| 5 |  |  |  |  |  |
| 4 |  |  |  |  |  |
| 3 |  |  |  |  |  |
| 2 |  |  |  |  |  |
| ${ }^{1}$ |  |  |  |  |  |

1. Which pet is the most popular?
2. How many children have cats in the class?
3. How many more children own rabbits than turtles?

Use this space to work out question 4

Extension: Complete or copy and complete the block graph.

Favourite animals

| Animals | Votes |
| :---: | :---: |
| Penguin | 6 |
| Monkey | 8 |
| Lion | 12 |
| Zebra | 10 |
