

**P6 MATHS IT!**

Maths: Measure 5 items around the house in centimetres and convert to millimetres. Then measure 5 different items in millimetres and convert to centimetres. Remember 1cm = 10mm

Numeracy: Practise one of the following times tables (x3, x4, x6) using the following link (should be tablet friendly):

<https://www.topmarks.co.uk/maths-games/hit-the-button>

**P5/6 Home Learning****RESEARCH IT!**

Our class novel Holes is set in Texas in the United States of America.

Can you locate Texas on a map of America?

Can you find out 3 facts about the state of Texas?

If it is 3pm in London, can you find out what time it will be in Houston, Texas?

**P6 READ IT!**

Reading: Please complete reading given on Mondays.

**SPELL IT!**

Use the look, say, cover, write and check sheet to practise your spelling words.

Write a sentence for each of your spelling words or write a silly story including all of your spelling words.

**ART IT!**

Create a pencil drawing of what you can see from your bedroom window.

Can you add texture to your picture using the skills we have been learning about in our art lessons?

**STEM IT!**

Create a game which reinforce what we have been learning in our science lessons about animal classification.

Some words to help you are: vertebrates, invertebrate, mammal, bird, reptile, fish, amphibians.
