

MATHS IT!

P5s -

Fractions activity sheets.

P6s -

Maths - ask your parents/family member, if they have ever had to calculate the area and/or perimeter of a room. Why? Give a description of their answer in your jotter. If not, can they describe a reason why you would need to know the area of a room?

Using a measuring tape, calculate the perimeter and area of the smallest room in your house. Draw a rough sketch of the room and label the perimeter and area. If you do not have a measuring tape, please ask and we can find you one to borrow for this task.

**P5/6 Home Learning****Assembly IT!**

Practise your lines for our assembly. You should rehearse speaking clearly and at a good volume.

Enterprise IT!

Share with someone at home the products we have been making for the Christmas Fayre. Discuss how we have designed, advertised and priced the products. Discuss the skills you have been developing through enterprise. We will be making Unicorn Bark to sell at the Christmas Fayre. Here is the recipe for those who want to try it out themselves at home:

READ IT!

P5

Reading as set in class.
Non-fiction book & comprehension questions on Bug Club.

P6s - see home learning jotter.
Monday 19th - Sunday 25th November is Book Week Scotland. Why not look at this list and see if you find any inspiration for your next book? Remember to keep updating your reading passport in school with any books you have read at home.
