

Hopes and Dreams for the Future

Group Talk

You have to create a talk to deliver to your group. Your talk should be about a career that interest you. You might wish to prepare notes on the following points:

- Why you are interested in that career
- What skills and qualities you think you will need for your chosen career
- Someone you know who already has that career who you find inspirational (this could be a famous person or it could be someone you know e.g a parent, sports coach or family friend)
- What qualifications you will need to do this career
- What would a day in your chosen career look like?
