

**MATHS IT!**

P5s -

Magicians - Find 5 items that cost less than £10. Work out what change you would get from £10 if you bought those items. List the coins or notes you might get in change.

Masters and Marvels - Budgeting sheet.

**P5/6 Home Learning****CHINA IT!**

You might wish to work on your personal project on China at home and collect information or pictures to add to your project book.

**READ IT!**

P5

New reading books will be issued and reading set week beginning 29.4.19.

P6s - see home learning jotter.

**SPELL IT!**

Use pyramid writing to practise your spelling words.

Choose one way of your own to practise your words.

Can you think of any more words to add to your word lists?

**MOVE IT!**

We will be working on developing our pace and stamina in distance running. Can you practise pacing yourself whilst running a longer distance? Perhaps set yourself a target and time yourself across a few days to see if you can achieve it.

**STEM IT!**

We will be learning about light and sound. Share your learning with someone at home:

- Can you explain how your eyes and ears work?
- Can you talk about the experiments we have been doing in class?
- What new vocabulary have you learned?
