

MATHS IT! ★

Multiplication and Division Puzzles

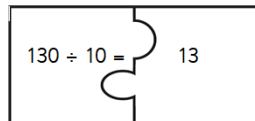

Step 1: Create a combination of 12 multiplication and division questions based on your learning in maths:

Examples include:

- Multiplication or division facts to 9
- Multiplying or dividing by 10
- Double digit multiplication

Step 2: Write a question on the left-hand side of each puzzle piece.

Step 3: Solve each question using your maths strategy and write the answer on the right-hand side of each puzzle piece.

Step 4: Challenge a grown-up or friend to solve your puzzle!

P5/6 Home Learning

SPELL IT! ★

Muddled Up: Have someone write out your words with the letters muddled up and see if you can sort it out.

Dictionary Detective: Use a dictionary to find out the meaning of each word. Can you find another word that means the same?

Write IT!

We have been learning about figurative language in poetry this week. Write three similes about kindness.

Examples:

- Kindness is like the sky, it reaches far and wide.
- Kindness is as sweet as honey.

Read IT! ★

Your homework is to read poems. You may have a book of poetry at home, in which case, sit and enjoy reading it! If you don't, here are some great websites that you can look at:

<https://www.poetry4kids.com/>

<https://www.poetryfoundation.org/learn/children>

Choose a poem you like and answer these questions in your home learning jotter:

- What is the name of the poem you have chosen?
- Who wrote the poem?
- What is the poem about?
- Why do you like it?
- What are some ideas from the poem that you can use to improve your own poetry?
