

MATHS IT!

Learning About Angles!

A. Collect some catalogues or leaflets at home. (If you do not have any, you can collect pages from school.)

Find angles in the pictures and diagrams. Use different colours to identify the following types of angles:

- Right angles
- Acute angles
- Obtuse angles
- Reflex angles

Extension: Estimate the size of the angles

B. Think about a route you walk regularly (to a shop, to or from school, around a playpark), or create your own. Draw the route showing the turns you make. Think about:

- How many turns are right angles? Acute? Obtuse? Reflex?
- Which turns are clockwise?

P5/6 Home Learning

SPELL IT!

Crossword Puzzle: Make a crossword puzzle with your spelling words. Show the answers to your puzzle.

Synonyms: Find at least two synonyms for each of your spelling words. Write your spelling word down, followed by the two synonyms you have chosen.

DRAMA IT!

Our School Show will be here before we know it! It is important that you are familiar with the script and song lyrics.

Take time to learn the script. Practise your lines. If possible, read them with a partner.

Remember to read with clarity and expression!

READ IT!
