

Primary 1 Learning At Home

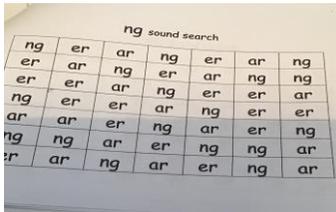

Wednesday 29th April 2020

Common Words

Get the common words you are practising this week. Now get your pink Home Learning jotter and write out each word using a different coloured pencil for each letter. OR you can find old magazines and cut out the letters to make the words! You choose!

Sounds Search

We have learned so many sounds in P1 but we need to keep them fresh in our minds. You will need the Sound Search and will re-visit the 'ng' sound. It will look like this.

Have a look at this video.

<https://www.youtube.com/watch?v=wvEnyKWxcTg>

Remember to add your date at the top left corner. Work your way along or down and circle all the 'ng' sounds. How many did you find?

P1 Reading

Over the next few weeks all P1 pupils will work on the same book from Bug Club. They can be found by logging into www.activelearnprimary.co.uk

There are books allocated to pupils that can be read for pleasure and others that will be used to focus on learning. Those on the Blog will be used for focused work. Remember short and often is much better for young learners than once a week.

Sport is Fun to page 5

Things to talk about

- What genre of book is this? fact or fiction
- Look at the contents page and talk about the different sections and the pages
- Can you sound out any of the sections?
- Look at page 3 and find the word 'like'. The i and e work together to make this sound like, bike, mike, like.
- Look for the word 'play'. The a and y work together to make a sound like day, May, tray, say.
- On page 4 find the word football. What 2 letters do you need for the 'oo' sound? Look at the word ball. What is the vowel? Although we say the 'o' sound, the spelling uses an 'a' sound.
- On page 5, find the word 'kick'. What 2 letters work together but only use 1 sound?

P1 Money

For today's lesson you will need the pictures of the money from the numeracy folder. Paper money has lots of different information on it. It has the value £5, £10, £20, £50, £100. £50 and £100 notes are becoming less common to see. Here is a picture of a £50 note.

This money has been printed for The Royal Bank of Scotland and has Lord Llay on it who was an important Duke from long ago. On the reverse side it has a picture of Inverness Castle. Paper money usually has people and places on it. Now cut out all the £5 and £10 notes from the numeracy folder. We will use these to skip count and count out the value.

You should have 6, £5 notes. You can make more by drawing them if you would like to skip count to a larger amount.

First of all hold up 6 fingers and skip count each of them in 5s. 5, 10, 15, 20, 25, 30. Now count out each note and skip count as you go. 5, 10, 15, 20, 25, 30 = £30.

Do the same with the £10 notes. Hold up 6 fingers and skip count out in 10s. 10, 20, 30, 40, 50, 60. Now count out the £10 notes, 10, 20, 30, 40, 50, 60 = £60.

How many £5 notes make £20?

How many £10 notes make £20?

Different number of notes but the same value.

Art and Design

The Royal Mint used to be the only place that was allowed to print money. Here is a picture of it.

You would get sent to jail if you made money and tried to use it. But today you can design your own paper money in your pink Home Learning jotter. You can decide

- who will go on the obverse side
- which place will go on the reverse side
- what is the value of your money
- the bank name
- the colour of your money

CHALLENGE

There is an old phrase that says 'Show me the colour of your money'. This means how much will you pay. Can you find out what colour each note is? Did you know there used to be a £1 note? What colour was it?

Calendar

Can you complete today's calendar without any help? What is today's date? Can you write it in your pink Home Learning jotter? How many days are left in April? Remember to only count the boxes with a date. Do you know what the 2nd last day of the month is called? It is the penultimate day! A new month soon!

Mini Topics

I hope you are all enjoying making entries into your fact files. I have seen some and they look super! I think we have some authors in the making. We are going to learn some songs. They are listed below and you can listen to as many as you like.
