

WHAT WE PLANTED

Do you remember our walk to

We picked bulbs to plant.

There were lots of different shapes and sizes to pick from.

We all had Gardening tools.

These were used to dig the grass to make a hole ready for the bulbs.

We put them in the holes and covered them up with grass in the hope that come the spring they would grow and become flowers.

Well guess what???

If you go to Morrison now you will see they are growing and starting to flowers.

WELL DONE
