You said ...	We already do ...	We will do ...
Busy school calendar with dates for coming into school.	The dates are shared in the calendar in advance.	Review the calendar to ensure we spread the dates out over the school year as much possible.
Maybe making it clearer that grandparents could attend as well.	The invite to families said one adult per family was invited to attend.  Different family members attended the event.	
Could the jotter sharing have been shared today or at parent's evening.		The jotters will be shared at the parent's night, sometimes there is not enough time to look at the jotters in detail on these evenings so we wanted to give families another chance.  Yes, in the future we could look at sharing the learnings and jotters at the one event.
