Term 3 Magic Moments

Miss Burton, Miss Miller & Mrs Grieve have picked some magic moments that each clan deserve to be recognised for!

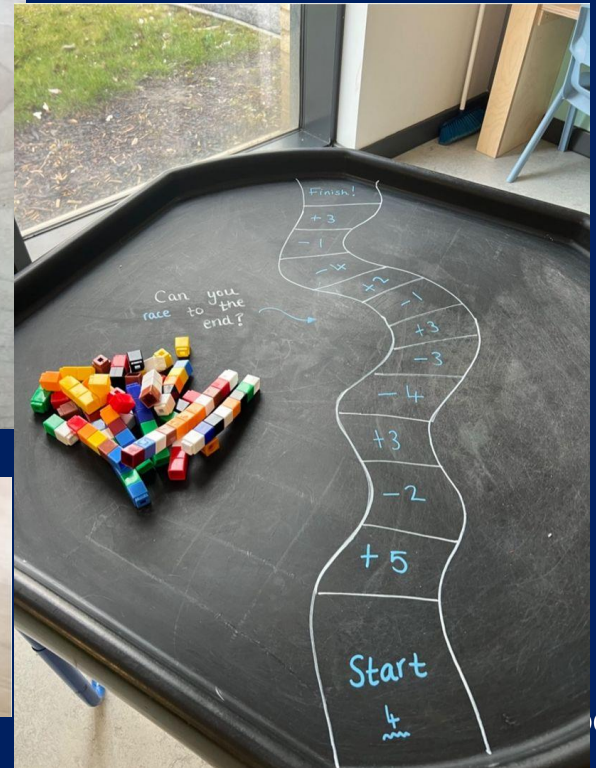

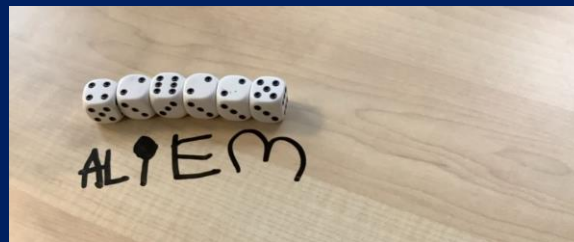

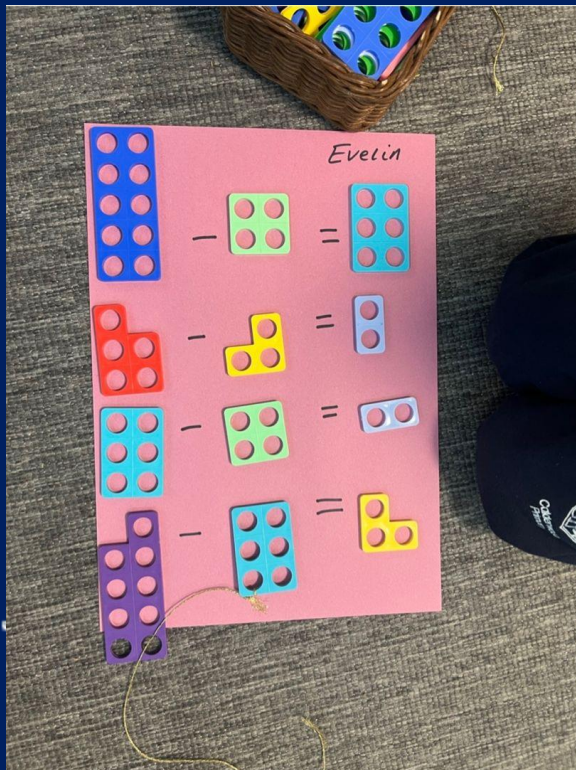

Calderwood
Primary

Mull

I have been so impressed how you've been using concrete materials to develop your understanding of addition, subtraction and number.

Orkney

Miss Miller has been very impressed by your Engineer Skills. Your resilience, problem solving and creativity is amazing!

Orkney's little Engineers had lots of fun building planes this week.

Next week they will be engineering anything of their choice (in class) for the dragons den.

They will compare this weeks project to next, where they will see the benefits of using a paper plan for the designs prior.

This week, Orkney Engineers made watches.

We are learning to tell the time (O'clock and half past).

Primary

Shetland

Miss Miller is very impressed by how well Shetland clan have been budding scientists, making hypotheses and testing these out!

Skye

I have been so impressed by Skye's cooking skills. Your baking smelled and tasted delicious thank you for my treats!

Leven

Mrs Grieve has been very impressed with Leven clan's block play and Kapla building skills. They used Kapla to make their own creative Loch Ness Monster. I loved being invited along to your museum.

Linlithgow

Mrs Grieve was so impressed by Linlithgow's Scottish Country Dancing, particularly The Canadian Barn Dance. You worked as a team, persevered and had fun. It was great to see lots of skill in rhythm and timing. I loved watching your video on Seesaw!

Rannoch

Mrs Grieve was very impressed by Rannoch clan's engineering project of building a telephone. You worked as a team to solve how sound travels and made your own phones! Thank you for inviting me to test the phones that you had made.

Tay

Mrs Grieve was very proud of Tay's lesson on sharing what they are grateful for. It was lovely to see you share your values, beliefs and ideas. I could see how much your clan meant to you and how grateful you were to be part of Tay!

Primary

Tummel

Mrs Grieve has been impressed with Tummel clan's play. They have been following the rules of discovery time by wearing lanyards and playing together. It has been great to see you be creative and lead your own learning!

Bluebell

Mrs Grieve has been very impressed with Bluebell's cooking skills this term. They have followed instructions, used their measuring skills and worked as a team. I have also been very proud to see how ready, respectful and safe Bluebell clan have been this term!

Bramble

Miss Burton was very impressed to see Bramble looking after Calderwood garden, showing how much they care! After reading, taking notes and writing on how seeds become plants, they ventured outside to plant some seeds in our Calderwood garden. They planted different types of seeds, making sure they provided the seed with what it needs - soil, water and sunlight.

P5s: Bramble & Thistle

Our Primary 5 clans have been taking part in a creative project with Limelight music. Miss Burton was very proud to see them perform to their families, showcasing their creativity and confidence.

Ben Lawers

Miss Burton is very impressed at how ready, respectful and safe Ben Lawers were at their recent trip to Sky Studios. They came back very excited to share the trailers they had made.

Ben Lomond

Miss Burton is delighted that Ben Lomond enjoyed our first ever Calderwood Camp! Everyone demonstrated a real have a go attitude, showing resilience and bravery, whilst (mostly) keeping their rooms tidy!
