

FIRE DRILL PRACTICE AT CALDERWOOD

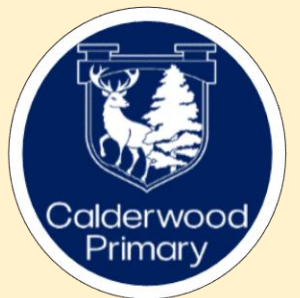

At Calderwood, sometimes we have a fire drill to practice what we would do if there was ever a fire in the building. The drill isn't a real fire.

First the alarm will sound. It will be a loud
buzzing sound.

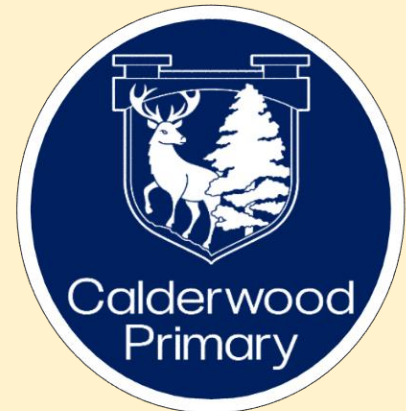

Listen for the alarm.
Beep Beep Beep.

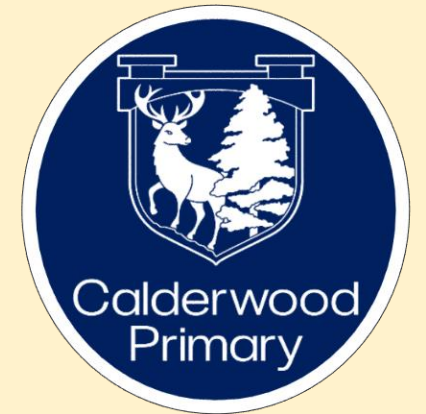

We will line up with our champion and our class at the door, ready to leave the building.

We will do this as quietly as possible.

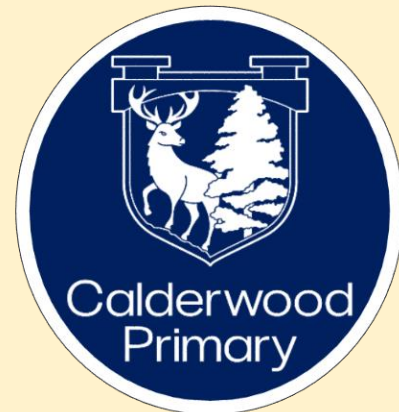

We will walk through the playground towards the field to line up with our class.

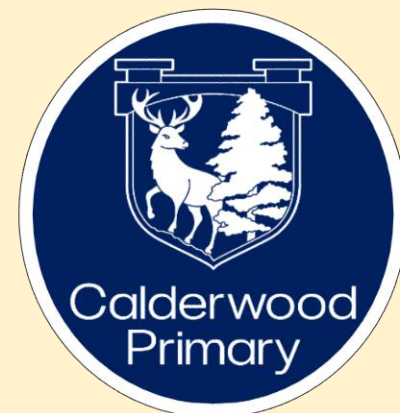

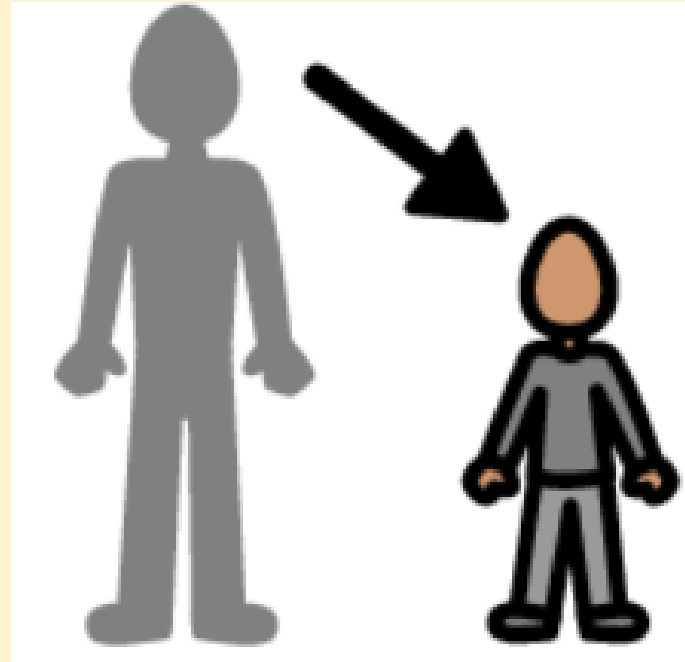

We will line up with our class in the field and wait until we are told we can go back into school.

The whole school will be lined up across the field to keep us all safe together.

My Champion will help me to know what it is we have to do.

When it is over, I can tell everyone how to keep safe and what happens during a fire drill at school.
