

Calderwood Can: Profiling: Seesaw in Primary 1-3

At Calderwood we recognise that profiling creates a holistic overview of the child as a learner through reflection and dialogue. This is central to our practice in recognising achievement, profiling and recording.

Seesaw

Seesaw is an online learning space for champions and children to share progress in learning and achievements.

Learning Tasks Posts

Posts will include learning intentions and success criteria.

Frequency

Weekly posts may be in groups, individual and/ or whole clan.

Feedback

All learning will be assessed in line with the success criteria and will either have self or teacher feedback. This may be recorded or written.

Using their family log in, parents/carers are able to leave verbal or written feedback as a comment or like the post.

Sharing my learning

Children can choose pieces of learning to share with their families, by taking a photo and creating a post. These posts may not have any teacher text.

Children should be mindful to only share photos of their learning.

Achievements

Parent/ careers can use the pupil log in to post home learning and wider achievements. The child can share this with their class if they wish to do so.

I'm a Student	I'm a Family Member
• Children can share learning and activities in class and at home. • During school learning time, the teacher may share learning posts. These might include whole class, group or individual posts. • During school learning time, as children develop independence with using Seesaw, they can make posts to showcase their learning. • At home children can share their wider achievements. • At home children might share their home learning in response to any home learning assignments assigned to their child. • If you have multiple children in your household, you will have to log in and out of each child. • QR code which changes each year.	• Families can like/ comments on their child's learning posts. • Families have access to their child's journal and posts the teacher tags with 'everyone'. • Families can link multiple children to their family account, so they don't need to sign out to view each child's posts. • Linked to parent/ career email address.
