

Alessandro plays the violin

Do you want to play with him?

1

Alessandro is sad because he has lost his grandmother. He does not know how to express his sadness and his emotions. But when he plays his violin, he can let go of his feelings and the tears can run down his cheeks.

2

Different things make different sounds. Sounds can be deep, light, loud, quiet, unpleasant, fun and crazy. Try it yourself. Find things where you live, things made out of wood, plastic, small things, large things, and make sounds with them. Listen to the different sounds. Try to put the different sounds together.

Try going outside in nature and make noise there. Hit a tree, knock two sticks together, shake a branch, step on the forest floor, yell and make an echo, hit a light pole, throw small rocks and listen to the sounds they make, when they hit the ground.

	Yes	No
Do you like music?		
Do you play an instrument?		
Do you have a favorite music number?		
Do you like listening to music?		
Do you like to sing?		
Do you like to make a rhythm?		

You will need

- Two empty waterbottles
- 2 elastics
- Beads, rice or dried beans
- A plastic strip
- Two popsicle sticks or flower sticks
- Tape

3

Music is lovely, especially when you play it with others. Build three instruments: a Guiro, a pair of Maracas and a Bass. Play a cool rhythm with your friends or your family.

Follow the images step-by-step and get going.
