

## SQUARES WORDED SUBTRACTION PROBLEMS

1. Tyler had made 22 Minecraft pigs but 4 of them disappeared. How many were left?  **$22 - 4 = 18$**
2. Sophie saw 33 Unicorns in her garden but 5 of them went away. How many were still in the garden?  
 **$33 - 5 = 28$**
3. There were 35 caterpillars in George's garden. Three of them changed into butterflies and flew away. How many were left?  **$35 - 3 = 32$**
4. Hannah had 23 Roald Dahl books to read. She read 5 of them at the weekend. How many has she left to read?  
 **$23 - 5 = 18$**
5. Millie had 40p to spend. She bought a banana which cost 5p. How much money does she have left?  
 **$40p - 5p = 35p$**
6. There were 30 dinosaur eggs in a nest but a T-Rex stole 4 of them. How many are left in the nest?  **$30 - 4 = 26$**
