

TRIANGLES WORDED SUBTRACTION PROBLEMS

Try to explain how you get your answers to someone in your family or use a teddy and pretend it's Mrs Kohler or Mrs Duff!

1. Abdul-Muhaymin had 12p. He bought an apple. It cost 5p. How much money did he have left?
2. Sophie saw 13 Unicorns in her garden but 4 of them went away. How many were still in the garden?
3. Harrison had 15 Buzz Lightyear toys. He gave 4 to his brother. How many Buzz Lightyear toys does Harrison have now?
4. Tiana had 20 yummy strawberries in a pot. She ate 3 then she gave 4 to her friend. How many strawberries are left in the pot?
5. Jamie had 16 Marvel hero cards. He gave 4 to Tyler and another 4 to Ruari. How many cards does Jamie have left?
6. Ruby got 17 Easter eggs from the Easter egg hunt. She gave 8 of them to Zuzanna. How many eggs does Ruby have now?

Good luck! Ask someone to help read them if the words are too tricky!
