

TRIANGLES SUBTRACTION MONEY WORKSHEET 04.05.20

WALT: use different strategies to help us subtract. (MNU 1-03a)

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----	----	----	----	----	----	----

$20\text{p} - 10\text{p} =$

$15\text{p} - 3\text{p} =$

$12\text{p} - 3\text{p} =$

$16\text{p} - 4\text{p} =$

$11\text{p} - 4\text{p} =$

$£20 - £10 =$

$£15 - £3 =$

$£12 - £3 =$

$£16 - £4 =$

$£11 - £4 =$

Do you see the connection?

Blip is an alien. He has 10 space pence. He buys a twinkly star which costs 4 space pence. How many space pence does he have left?

Mrs Duff has 20p. I buy some milk. The milk costs 9p. How much change do I get?

For the next part, you might want to ask if you can borrow some coins: some 1p, 2p, 5p and a 10p coin.

Remember, we have 1p, 2p, 5p and 10p coins (no 3p or 4p coins!)

Example: How do you make 14p using 3 coins?

Answer: 10p, 2p and 2p.

How do you make 10p using 2 coins?

How do you make 12p using 3 coins?

How do you make 6p using 2 coins?

How do you make 15p using 2 coins?

How do you make 11p using 3 coins?

How do you make 20p using 2 coins?

How do you make 20p using 3 coins?

How do you make 20p using 4 coins?

Challenge: Make 10p as many ways as possible (remember, no 3p or 4p coins!)

Finished! Well done for trying your best.
