

SQUARES AND TRIANGLES WORKSHEET 11.05.20

WALT: recognise number sequences within 100. (MNU 1-03a)

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Number Before/ One less: this means you take away 1.

Example: what is the number before 10? This means $10-1=9$

Another way to say this is: What is one less than 10? This means $10-1=9$.

Use the hundred square above to help you if you need it.

Blip wants to know what is the number before:

9

13

11

20

31

33

44

57

70

81

99

100

Blob wants to know what is one less than:

7	13
16	19
21	30
48	71
90	60
55	41

This milk costs 30p at Savers Shop but costs 1p less than this at Mega Savers. How much does it cost at Mega Savers?

Bruno lives at 13 Bone Street. His friend, Bob, lives at the number before him. What number of Bone Street does Bob live at?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Number 2 Before/ Two less: this means you take away 2.

Example: what is the number 2 before 10? This means $10-2=8$

Another way to say this is: What is two less than 10? This means $10-2=8$.

Zig wants to know what is the number 2 before:

4

9

11

16

20

21

33

39

41

45

50

61

Zog wants to know what is 2 less than:

2

10

13

18

22

25

30

31

56

70

81

100

Trixie eats 11 Rainbow flowers for lunch. Her friend, Fluffy eats 2 less than Trixie. How many flowers does Fluffy eat?

Percy the panda wants to know what the number 2 before 31 is. Can you help him?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Number After/ One more than: this means you add 1.

Example: what is the number after 10? This means $10+1=11$

Another way to say this is: What is one more than 10? This means $10+1=11$.

Percy wants to know what is the number after:

7	10
12	16
19	22
35	49
60	79
83	99

Fifi wants to know what is one more than:

9	11
15	18
20	29
53	69
70	74
85	89

Sid wants to test you. He wants to know what is **2 more than:**

6	8
9	11
13	16
18	19

Sid has 8 apples to eat. His friend, Jo, has 2 more apples than Sid. How many apples does Jo have?

***Challenge: make up some questions on number before/ after; 1 or 2 more / less than for someone in your family.**

Finished! Well done for trying your best.
