

Shape Assignment 1

Learning Intention - We are learning to explore 2D shapes and discuss their *properties*.

Properties means things you say it has.

Success Criteria – We will...

- Identify the different properties of 2D shapes.
- Put shapes into groups based on the properties they have in common.

Let's Learn!

- If you haven't already, have a look at this BBC Bitesize page about 2D shapes from last week <https://www.bbc.co.uk/bitesize/topics/zbtp34j/articles/zfdvvk7>
- Have a look at the *2D Shapes Quiz*. This is on the blog and in the weekly files folder.

Warm Up:

- *2D Shape Sorting Task*. There is adult guidance on the activities but if you are working independently you can have a look at the questions yourself.
- Tip: If you are trying to view it on a screen, to rotate you click View> Rotate View > Clockwise.

Main Task:

- Complete *2D Shape Properties Table* – Mild, Spicy or Hot (choose one).

Something Extra:

- *2D Shape Colouring Sheets* – do as many as you like. If you cannot print can you recreate the picture by drawing it then colouring it? These can be found on the blog or in this week's file.
- How many 2D shapes can you make with your body? Can someone you live with guess the shapes you are making?

Next Steps:

Identify the properties of 3D shapes and sort them based on their properties.
