2 red drawing pins = 6, so one drawing pin must be half of 6 which is 3; 3 + 3 = 6
A drawing pin + a pen = 8 (3 + ? = 8; 3 + 5 = 8)
A ruler and a pen = 9 (? + 5 = 9; 4 + 5 = 9)
A drawing pin (3) + a ruler (4) = 3 + 4 = 7

Congratulations if you managed to work that one out!
