

P5 Home Learning

Week beginning: 15th June

Tasks marked with a ★ are priority tasks and we would ask you to complete them each week. These priority tasks will also be set as assignments in your class team on Glow in order that you can share your learning with your teacher and receive some feedback where appropriate. Feel free to share any other learning in the P5 2019-20 'Additional Activities' channel or into your Personal Folder.

Reading: Book Review ★

WALT use strategies before, during and after reading to help us better understand a text.

We hope you have been keeping yourself busy by reading lots of books in your dens during lockdown.

A book review's purpose is to help people decide whether or not the book would interest them enough to read it. Reviews are a sneak peek at a book, not a summary.

Extra – Design a new front and back cover for your book (inc. blurb)

Health & Well-being ★

WALT keep fit and healthy

This week would have been 'Health Week' so we've got a range of P.E. activities to try as part of Sports Day. Choose at least 8 activities to complete and use the recording sheet to keep track of your scores. You could even compete against your family!

Literacy: Writing ★

*WALT plan our writing in a suitable format.
WALT use our storyboard plans to help us write an imaginative text.*

Use your storyboards and any feedback to write the final part of your story.

Draw some illustrations to go with your story.

Times Tables Practice

Additional: Art & Literacy

Write a postcard to either Mrs Davies or Miss Gorman telling us what your favourite things have been over the last 12 weeks? Whether it's a piece of work you enjoyed working on, the extra activities we set, a special occasion you have celebrated or just how you have felt during lockdown.

Numeracy: Revision of Topics ★

For this, we are taking a virtual field trip!

Use the interactive PDF titled 'Disney World' or use the printable document if you do not have access to a device.

Choose at least 5 activities to complete.

Sumdog ★

Please complete any relevant assessments, challenges or contests on Sumdog.

Additional: Science Tuesday 16th June is the Great Science Share!

1. Use one of the templates to make a question generator.
2. Complete one (or more) of the suggested activities
3. Use your question generator to help you think of questions to go alongside the experiment
4. Research/investigate your questions further
5. Share your learning with us!
