

LITERACY!

Read the book you chose on Monday aloud to someone at home.

Log in to Oxford Owls and play activities 1 and 2 on your chosen book.

I have set you a sight word challenge on Sumdog. The challenge will be available all day to complete.

Test yourself on the 5 sight words you learned on Tuesday. Write the words in your jotter using bubble writing.

NUMERACY!

Practise counting in 10s.

Make a poster to show that you can count up in 10s. How high can you go? You can use your 100 square to help you.

You have today and tomorrow to complete the skip counting challenge on Sumdog. I am so impressed at how many of you have started or completed it already! Well done!

P2 Activities

A note from your teacher

Please complete these tasks in the jotter provided each day. You will be able to share your learning when you return to school.

OTHER!

Science:

Watch this video from the Glasgow Science Centre YouTube channel
[Glasgow Science - Can you send a teacake into space?](#)

Before you watch answer these questions:

Do you think the tea cake will make it to space? Why?

What other objects could you send into space? Why?

If you can't get online, think about what kind of object you could send into space using a hot air balloon. Would they need to be light/heavy/big/small/living/non-living?
