

## LITERACY!

Re-read your book on Active Learn out loud. Answer the following questions about the book:

Where is the story set?

Who is the main character?

What is the book about?

Did you like the book? Why/why not?

Read, say, cover, spell and check the next 5 Fry's words (at, be, this, have, from)

Watch this video I have made you to remind you about connectives:

[Connectives](#)

Copy and complete the sentences by choosing a connective word to join the sentences, making sure that it makes sense!

[Connectives copy and complete](#)

You can share work with me either by emailing the school office or on the online Learning Journals by using the Wider Achievements at Home section. There is a free app too!

## NUMERACY!

This week we will be working on place value. I have set you a place value challenge on Sumdog and you have until Friday to complete it.

Here is our favourite place value game:

[Shark Numbers Place Value Game](#)

Use your number cards to make either a 2 or 3 digit number. How many hundreds/tens and ones are in the number?

E.g. If I put 5 and 7 next to each other the number would be 57. I know that in 57 there are 5 tens and 7 ones.

Repeat this as many times as you can.

## P2 Activities

### A note from your teacher

Please complete these tasks in the jotter provided each day. You will be able to share your learning when you return to school.

## OTHER!

STEM:

Build the tallest tower that you can. Make sure that it can stand up by itself and isn't attached to or leaning on anything. You could use Lego, blocks, recycling, or anything else you can think of!

Can you make your tower as tall as you?  
I'd love to see some pictures of your towers.
