Odd and Even

The witches have been making a maths potion. Can you help them to spot the odd and even numbers in the bubbles?

Colour all of the odd numbers in yellow and all of the even numbers in blue.

A collection of 20 numbered bubbles arranged in a circular pattern around a central illustration of a witch's cauldron. The cauldron is a large, rounded pot with a handle on the left and two small pointed ears on the right. Inside the cauldron, there are several small circles representing bubbles. The numbers in the bubbles are: 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. The numbers 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 are even. The numbers 23, 25, 27, 29, 31, 33, 35, 37, 39, 41 are odd.

How do you know if a number is odd or even?

My Book Review

Title: _____

Author: _____

Did you like the book?

Rate the book by colouring in the stars.

What was your favourite part?

Draw your favourite scene from the book.

LITERACY

Writing: Book review

Today I would like you to try out a book review. You should have a page that looks like the one attached above called 'My Book Review'. A review is just a little bit about what you thought of the book!

I would like you to choose your favourite book and complete the worksheet on it or by writing in your jotter. For the 'what's your favourite part section' you may use the sentence starters below! I can't wait to read your reviews!

My favourite part of 'Title of the book' was when...

I also liked when...

(P.s. the template above is not exactly the same as the ones in the oack but don't worry they are the same questions etc.)

OTHER!

Class Talk/Poster Prep.

Today is the last day for working on your poster! I hope you are working hard to put the finishing touches on your poster. I can't wait to see them all 😊

NUMERACY!

Odd and Even numbers

I hope we had fun on Monday investigating odd and even numbers again. Today I would like you to continue this by completing one of the worksheets attached. You could use the numicon you made to check as you go along. One of the worksheets is numbers to 100 if you would like a challenge. You can print or copy into your jotter, making a page for even and a page for odd numbers may help 😊

Remember even numbers always have a friend when using numicon, odd numbers do not. Two even numbers always make an even and two odds also make an even.

Challenge

Swing counting

Choose some numbers with 100 and practice counting forwards and backwards from that number!

P1 Activities 28/05/20

A note from your teacher

Please complete these tasks in the jotter provided each day.
