

## 5.6.20

1. Last week you all created a main character for your comic.
2. Now you need to think about what your character will do in the story before we put parts into the comic boxes. (Primary 1s if you have no comic template in your original pack let me know please?)

3. First think of these: Where does your character start in the comic? What are they doing?
4. What happens with your character? (can be more than one thing)
5. What issue/problem does your character come across? (normally near the middle/ where the star is)
6. How is this problem resolved?
7. Where and how does your comic end?

All discussion of your plan just now

Write this down in your jotter and fill in gaps to start for your story to help you.

My character wants \_\_\_\_\_ but \_\_\_\_\_ so  
\_\_\_\_\_ .

When discussing your story point to each comic book box on the template sheet so you have an idea for next week when we create a comic.

I comic has detailed pictures and little writing. We will learn about that next week.
