

## LITERACY!

P2

## NUMERACY!

P1 and P2s revision and practice.

This is a tricky problem.

Keep going until you get them all hopefully.

- Take 10 toys/objects and split into 2 different groups each time.
- Draw them and write the calculations you make in your jotter.
- Can you find 11 different calculations?

For example: 1 toy on one side and 9 toys on the other side.

The calculation would be:  $1 + 9 = 10$

Remember: you can switch the numbers in calculations.

$$2+5 = 7$$

$$5+2 = 7$$

Any photos or videos upload to Wider Achievements tab on your Online Journals.
