

This week we are going to ask you to produce a project about bees.

How you show us your work is up to you.

You could:

- Make an information book
- Make a poster
- An information report
- A powerpoint

Or you might have an even better idea.

- Have you got clear sections in your poster, book or report?
- Have you underlined headings or put boxes or bubbles around information?
- Have you checked that you have all the capital letters and full stops that you need?
- Are your tricky words spelt correctly?
- Is your work neatly presented and easy to read?

Extra activity – Today's extra activity involves something that we all think about with bees – honey. Why not try making something with honey or try this recipe for Honey biscuits. ([Click here](#))

This is Bee Week

We will be learning about bees all week but your project is due by Friday 26th June. You can post it to your Learning Journals, send it in an email to the school office or hand it in during lunches.

I can't wait to see what you make.

Thursday 18th June

We have learned how important bees are to us but did you know they are in danger of disappearing altogether? Bees are endangered. Today we are going to learn about why bees are endangered and what we can do to help.

This video tells you a bit about why bees are dying. ([Click here](#))
This video is a story about some ways we can all help to save the bees. ([Click here](#))

In your project share some ideas to help protect the bees.
