

I have created this step by step guide for fractions on a number line. I hope it helps the pupils understand where to place the fractions on the number lines. Good luck, Mrs Love.

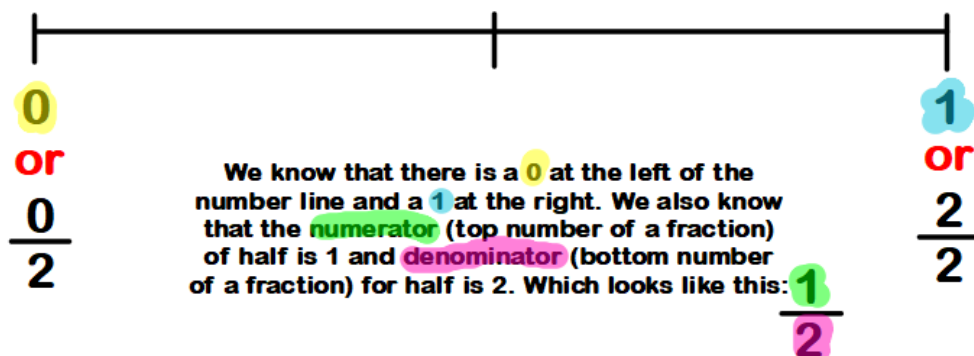

Step 1 : A missing fraction on the number line.

Half on a number line.

Step 2: Understanding the parts and values of fractions.

Half on a number line.

Step 2: Work out what fraction is missing and place it in the correct position.

Half on a number line.
