

# Make a butterfly bar

How can you charm a butterfly?  
Butterflies suck up sweet nectar from flowers or ripe fruit. Here's a drink that might tempt them down for you to see.

- 1** Slice the banana into the bowl and mash it up with the fork.

- 2** Make three holes around the paper plate (not too close to the edge) and thread a piece of string through each hole. Tie each string off.

## You will need

- Mixing bowl
- Fork
- Spoon
- Over-ripe banana
- Scissors
- String
- Paper plate

- 3** On a sunny day, tie the string at the top to a branch and spoon on the banana mush. Watch for butterflies.
