

P3 Home Learning - Week 6 - w.c.25.05.20

<p>Spelling this week Spelling words this week are 'ph' words, which sound like 'f': phone, graph, photo, sphere, dolphin, nephew, phonics, elephant, alphabet, pheasant, typhoon, pharmacy. Practice writing these over the week in different ways using the spelling sheet in your pack and do the Sumdog spelling challenge.</p>	<p>Literacy/HWB Keep a daily diary documenting how you are feeling and why and also how you are getting on with your home learning or you can document your adventures with flat Mrs Love. What were you doing each day? What did you enjoy doing most? What would you like to do next?</p>	<p>Literacy I would like you to write a procedure piece of writing, like the 'How to make shortbread' that we wrote in school. Can you write a procedure for a recipe/activity that you have enjoyed doing at home? Remember that you need a: Title, Goal (To make...), Materials (List) and clear steps using sentence openers (1. First, ...).</p>	<p>Bonjour ma classe. I hope you had a lovely weekend and are enjoying having Flat Mrs Love with you at home. She is having a fantastic time camping, baking, meeting teddies and animals, bike riding and even driving a Lamborghini! Remember to share your adventures with flat Mrs Love on Twitter using the hashtag - #FlatMrsLoveOnTour, or email me the photos directly. I can't wait to see what else I get up to with you all!</p>
<p>Reading Mrs Love has set you a challenge on the Epic app – Download app then use code rnc0467 to join the class, See the sheet in your pack for details to access. I have been watching what you have been reading on Epic. Well done to those who have been using it and completing the books/quizzes. We have read over 700 books now as a class, which is incredible!</p>	<p>Health and Wellbeing – PE</p>  <p>I have attached this week's PE task on the blog alongside this grid. It involves using a pack of cards!</p>	<p>Science - To carry on from last week's task about what animals eat, I would like you to look at food chains, watch the clip below: https://www.bbc.co.uk/bitesize/topics/zk7h34j/articles/z4jpnrd. Then I would like you to complete the quiz and then write a list of all of the animals that you can think of and then decide whether they are 'predators'/ 'prey' or 'either'? There are also additional activities to complete which are posted alongside this grid.</p>	<p>Here is the learning grid for week 6. Please continue to check the blog daily for Maths work and extra activities.</p>
<p>Topic – Flight I have assigned a new book on EPIC for you to look at, for our topic of Flight. It is called 'How Do Space Vehicles Work?' I would like you to take the quiz then create a poster about spacecraft's and how they work, using the information you have gained from the book.</p>	<p>Topic – Flight - Alexander Graham Bell is regarded as one of the most famous Scottish inventors. He invented the telephone! He invented other things too, including HD4, a Hydrofoil. I would like you to watch this video https://www.youtube.com/watch?v=Yb69kJ3tQ-w and create a poster about what a Hydrofoil is? What similarities it has to a plane? What was special about the HD4 model?</p>	<p>HWB/RME– Eid Mubarak! Muslim people around the world celebrated the end of a month long fasting called Ramadan yesterday where they couldn't eat during daylight hours. I would like you to plan a suhoor meal, which is the meal that is eaten before the sun rises during Ramadan. This has to give lots of energy to last the day. Then I would like you to create an Iftar meal, which is the meal once the sun sets.</p>	<p>Feel free to contact me via my email address: angela.love@westlothian.org.uk Twitter page: @MrsLoveP3 Have a great week P3! Mrs Love</p>
