

Kindness Handprint Heart

You will need:

heart display template

paint

glue

coloured marker pen or felt-tip pen (optional)

Instructions:

1. Print the Heart Display Template and use glue to construct the large heart.
2. Ask friends and family members to use the paint to make handprints inside the heart.
3. You may like to ask the maker of each handprint to recall a time when they have enjoyed the kindness of others. When the paint has dried, write the comment on their hand.

Top tip: do a handprint on some scrap paper before making the handprint inside the heart. This will get rid of any excess paint from the hands.
