14 January 2016

Dear Parents and Carers,

You are warmly invited to attend West Calder High School's P7-S3 Curriculum Information Evening on Wednesday 20 January, from 6:30 pm. The evening will begin with presentations, following which there will be the chance to browse stands, talk to staff and pupils, and go online. This is a great chance to learn more about the subjects, skills and experiences that make up our broad general education, and the way we help pupils keep track of their skills development and achievements.

We are delighted that P7 pupils in our cluster schools have the chance to start using didbook for their profiles this year, and will provide a brief introduction to didbook for parents and carers.

We will also outline the timelines for specialisation of subjects in S2 and S3.

Finally, we are very pleased to announce that a number of other partner agencies who support parents as well as pupils will be present on the evening with information stands, including:

- Sleep Scotland
- Healthy Reading Scheme
- Access to Employment (getting back into work)
- the Advice Shop
- Adult learning
- West Lothian College
- Community Learning and Development

We look forward to welcoming you to what we are sure will be a very worthwhile event.

Yours faithfully

Fiona H Rowland
