

Story Time

Have a break and look at this picture called 'Tiny Dragon'.

Discuss:

- Where is it from?
- Why is it so small?
- Are there more like him?
- Where does he live?
- How will you look after it?
- Will you keep it a secret or tell someone?
- What is it called?
- Is it magic? What magic can it do?

Writing

Yesterday you had a go at writing a recount about a visit to the museum with John. Now it's your turn to think about a time you went to a museum – it could even be about our class visit to the museum about the Egyptians! Can you draw a picture in your home learning jotter and label the important words (get an adult to help you spell these words like I do with you in class!) Think about what you looked at when you were there and what you learned! You can write your recount tomorrow. For now, just draw your pictures and labels.

RME

In class we looked at features of a church. One feature that we noticed was the beautiful stained glass windows. If you have the resources have a go at this stained glass window craft that I have uploaded to the blog called WEDNESDAY STAINED GLASS WINDOW CRAFT. If you don't have the resources have a go at drawing your own stained glass window design. There are lots of colourful examples online!

Health and Well-being

Have a go at Cosmic Yoga with Jamie!

Superheroes Topic

There are lots of superheroes in the world, Batman, Spiderman, Wonder Woman, Elastagirl...the list goes on! But did you know that there are lots of superheroes that we don't see in cartoons or in films? You might be standing next to one right now and not even know it!

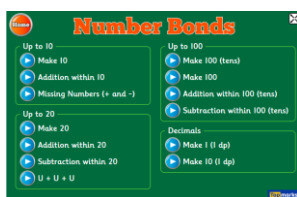

As you will be working through this topic from home, I would like to give you some choice about the tasks you would like to do each week. So each week I will upload a topic grid onto the blog and you can do as many activities from it as you like. Some tasks you may not have resources for but that's ok, just pick another task from the grid!

However, so that we are exploring similar ideas to each other, the tasks will link to a similar superhero theme each week. Good luck and enjoy being a learning superhero!

Mental Maths Warm Up

Have a go at playing hit the button on topmarks! This week you can pick any of the tasks to do!

<https://www.topmarks.co.uk/maths-games/hit-the-button>

How many sums can you get right in the time given? Play Again to see if you can beat your score!

Numeracy

Have a go at these addition and subtraction word problems. Record your working out and answers in your Home Learning Jotter.

Aim: I can solve two-step problems involving addition and subtraction.

7. In a school kitchen, the cook has 20 pie trays. She makes meat pies and vegetarian pies. The cook uses 8 trays for the meat pies and 7 for the vegetarian pies.

How many trays are not used?

8. A teacher collects a bag of 28 balls for a PE lesson. There are 3 colours of ball. There are 13 blue balls and 8 green balls.

How many red balls are there?
