- Crossword

Have you ever done a crossword? Here is one for you to try. Look at the picture clues. Each word will fit either down the way or across the way.

Can you solve the Crossword Challenge?

Maths

Counting to 10

Warm up
What is the next number?
3 → 5 → 8 →

Learn about
Make sure you can write the numbers properly.
0 1 2 3 4 5 6 7 8 9 10

Now try these
Draw the same number of biscuits in the empty jar.
Write how many you have drawn.

(Pages 1- 4)

Addition and subtraction

Warm up
 $6 + 4 =$ $4 + 3 =$ $8 + 2 =$ $3 + 5 =$ $5 + 5 =$
 $6 + 5 =$ $5 + 7 =$ $6 + 6 =$ $7 + 7 =$ $4 + 8 =$

Learn about
You can add numbers in any order: $3 + 8$ is the same as $8 + 3$
 $4 + 13$ is the same as $13 + 4$
Choose which way is the easier for you.

Now try these
Fill in the tables.

+	3	4	6
3			
5			
7			

+	5	7	9
2			
6			
8			

+	3	5	6
10			
12			
14			

Write the numbers which leave the number machine.
IN: 4 | 6 | 9 | 11 | 16
OUT: | | | |

Write the numbers which enter the number machine.
IN: | | | |
OUT: 11 | 13 | 15 | 18 | 19

Science

We have been learning about different minibeasts and their habitats. I wonder if anyone has tried to create a habitat yet for the minibeasts living in their garden?

Here is one idea for building a home for some of these tiny creatures.

Make Your Own Minibeast Hotel

Outdoor Activity

You will need:

A suitable container or area in your outdoor area, preferably wooden Compost Fertile soil Pieces of wood (various sizes) Different sized/shaped stones Bricks Old roof tiles	Clay drainage tubes Fir cones Dug leaves Bark Straw, hay Dead wood/sticks Plants that will attract insects
--	--

The Activity

1. Choose either an area in your outdoor area or a wooden container and place it on the ground.
2. If the container hasn't already got holes in, make some holes in the bottom. That will create drainage and let minibeasts crawl in.
3. Fill the container with compost and fertile soil.
4. Use your resources to build various places for minibeasts to live.
5. Woodlice and beetles will like woodsticks and if stacked, the minibeasts can crawl through them.
6. Plants will attract the crawling bugs like caterpillars, snails and spiders.
7. Butterflies and bees will like nectar-rich flowering plants.
8. It's up to you how much you put in your bug hotel.
9. Observe the hotel over time and see which minibeasts it attracts.
10. Can you find out which areas each kind of minibeast like best?

 www.twinkl.co.uk

The homes don't need to be big or grand though.

Here are other, simpler ideas using things like twigs and leaves and old flowerpots.
