12th January 2021

Dear Parents and Carers,

A big well done for supporting your children so well at home! Sadly, Microsoft interrupted our remote learning delivery both yesterday and today. There were a few glitches with live learning and the uploading of work on TEAMS as you can see from the data capture below. Let's hope it settles down in the forthcoming days. Please be patient. Work can be completed and submitted later on. The children do have access to their Sumdog log ins as a standby if things are taking longer to load etc

Please encourage your children to interact with resources we prepare but do pace yourselves within the context of your own homes and routines. We are aware each home will be different and it is fine to engage with the work set at different days and times. The important role you have at present is to care for the wellbeing and morale of your children. Our staff are doing a terrific job in this remote learning era but please be aware they themselves are often working from home with their own families and dependents too! There will be days that staff will be in school supporting the keyworker pupils each week too. Thank you.

Important Messages

Please do contact the school as soon as possible if you are encountering difficulties with remote learning and someone will be in touch as soon as possible.

We will be supplying stationary packs this week to support work at home. These can be collected from the front school porch. We will group call when these are ready.

We will have a member of staff in the office 8.45 am to 1.00 pm each day

Keep safe and keep in touch!

Hazel Thurlow
